Hi Lisa,

I am trying to get the word out, if you have any contacts that would be interested please forward along. The message below was only sent to the IGAP coordinators.

Thanks!! Tami

Subject: Mining Training - Dillingham & Newhalen - JUNE - PLEASE REGISTER ASAP

Good Morning,

I wanted to let you know that EPA has confirmed the mining information sessions for Dillingham and Newhalen. The ad that will be going in the Bristol Bay Times is attached. If any of you would be willing to help spread the word, by posting information on community bulletin boards and/or by emailing those you think might be interested I would really appreciate it.

The mining information sessions are a joint effort by EPA and the Alaska Department of Natural Resources (ADNR) to share information about the environmental review and permitting process for large mines. EPA and ADNR have presented these sessions in other communities where mines are proposed. Since the Pebble Partnership has not submitted permit applications or a project description for the proposed Pebble Mine we will not be going over any details of that project. Of course, we will share what we know about their proposals and make the training as relevant as possible, however it is still general in terms of describing potential impacts from mining and how those are mitigated and permitted. The agendas are attached below for the sessions to be held in Newhalen and Dillingham.

There will be EPA Senior Leaders traveling in the region during June 1-3, there will be times available to meet with them in regards to the Bristol Bay Watershed Assessment, please see the attached agendas for more information. Or if you have questions please let me know.

I am trying to find out how many people to expect and I know that we have limited space so please register ASAP - either online or by faxing the form below to me. There is no fee for registration.

Please let me know if you have any questions or concerns. I look forward to seeing you soon.

Sincerely - Tami
